

FOUNDING A BETTER FUTURE

OUR GLOBAL LEGACY... ... YOUR LOCAL SECURITY!

As energy sectors all over the world revolutionizes themselves and transform into green and renewable energy at unprecedented pace in history – we reach out as your trusted partner.

With 35 years of worldwide experience we are a global leader in grouting – acknowledged to deliver premium high-quality installation, test, sealing, maintenance, and repair.

Headquartered in Denmark with world leading wind turbine manufacturers in our backyard we have grown to carry out 95% of our operations on the global scene.

With businesses in Norway, Kazakhstan, Australia, and Ukraine, with fast-moving mobile units, we are operational on all continents.

Any project and location you can imagine – we will be there!

OUR PROMISES

- Second to none quality
- Top professional employees with international experience
- On time delivery
- State-of-the-art technology
- Care and respect for people and the environment

35 YEARS OF WORLDWIDE EXPERIENCE IN GROUTING

ONSHORE

Østermark Grouting is a trusted partner in the wind energy industry. Acknowledged for our long-standing international experience, our capacity to deliver premium quality in real-time, we set the standards for tomorrow.

As a leading entrepreneur we feel a strong obligation to research and develop state of the art grouting solutions in a groundbreaking increasingly sustainable manner.

Even with our ways of transportation, we strive to be as CO2-neutral as possible.

OFFSHORE GROUTING

We have successfully participated in new installations and repair of offshore wind, oil, and gas platforms. We participate from beginning to end of a project, including mockup and testing.

Our employees join international projects with up-to-date know-how as well as detailed insights to any local legislation and relevant standards.

In all aspects, security to both personnel and projects is a top priority to us.

REPAIR

We are experts in foundation repairs, both on- and offshore, including hydro demolition and UHPC injections for stabilizing towers. Keeping expensive downtime to a minimum.

SEALING

We offer coating and surface protection at sites across the world, in an effort to make your green investment last longer.

TEST

With setting the highest standards ourselves, we offer the wind energy industry a variety of test facilities, where research and development is combined to create real-world results.

WE CARE FOR YOUR GREEN INVESTMENTS

In 2018 we joined the United Nations Global Compact initiative making Østermark Grouting a business working actively to:

- Support, respect and protect human rights
- Uphold the freedom of association
- Support elimination of forced labor and abolition of child labor
- Eliminate discrimination in all its forms, especially regarding employment
- Support a precautionary approach to environmental challenges and act responsible
- Encourage development of green technologies
- Fight corruption and bribery

As part of the UN initiative, Østermark Grouting is proud to be part of a global movement building the business of tomorrow.

Founding a better future...

PART OF THE UN FAMILY

OUR SUSTAINABILITY GOALS

- Ensure healthy lives and promote well-being for all at all ages
- Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
- Ensure sustainable consumption and production patterns
